

It has been an exciting and thrilling start to Year 2 so far in the past few weeks. We have learnt many of the new rules and expectations that will allow us all to

learn to the very best of our ability. We have the class bean bags, yes bean bags. There are four for our seating pleasure. Not to mention the multiple laptables and the huge pile of cushions. Some of the unique parts of 2Blue.

In Reading, we have been using the comprehension strategy of visualising which is about creating a mental image of what we read. We have been visualising Australia Day traditions and the Chinese New Year by visualising the traditional story about the Year of Animals and the zodiac.

In Writing, we have been revisiting nouns, proper nouns and common and the pronoun which all help us write more interesting and relevant sentences.

In Maths, we created quite a few tally tables about our favourite fruit, our birthday months, family pets and even our hair colour. We created a picture together as a class and then we created two picture graphs by ourselves. We are so clever in 2Blue.

In Religion, we are looking at the images of God as Father, Mother, Shepherd and a Potter. This week we made something that reflects God using plasticine.

It has only been three weeks and things are really happening in 2Blue.
